

বঙ্গাল – Where Village Purity Meets Digital Convenience

What Are We Offering:

A professional e-commerce web platform dedicated to selling authentic Bangladeshi traditional and natural products such as *date molasses (khejurer gur)*, *sugar from sugarcane*, *pure honey*, and other local organic items. **বঙ্গাল** connects local producers directly to customers through a secure, easy-to-use, and visually modern website. The platform promotes Bangladeshi heritage while ensuring product authenticity and user trust.

Our Audience:

Our target customers are people across Bangladesh and abroad who value **pure, traditional, and chemical-free Bangladeshi products**. The platform also aims to empower small local producers and farmers by providing them with an online marketplace for wider reach and fair trade opportunities.

The Problem We Solve:

Most e-commerce sites in Bangladesh sell generic or mass-produced goods, often lacking authenticity and quality assurance. Customers find it hard to trust the purity of traditional products like molasses or honey.

বঙ্গাল solves this by directly sourcing from verified local producers and maintaining transparent product origins, quality checks, and reliable home delivery.

Our Secret Sauce:

1. **Authenticity First:** Verified sourcing from trusted local producers ensuring 100% natural and pure products.
2. **Modern E-Commerce Experience:** Fast, responsive, and SEO-optimized web app built with cutting-edge technologies.
3. **Smart Order Management:** Real-time inventory and order tracking system for both users and admins.
4. **Secure Transactions:** Integration of safe payment gateways (bKash, Nagad, COD) with encrypted user authentication.

Technology Stack:

- **Frontend:** Next.js + React + TailwindCSS
- **Backend:** Node.js + Express + TypeScript
- **Database:** MongoDB
- **Authentication:** JWT-based
- **Hosting:** Frontend on Vercel, Backend on Render/Railway

Project Vision:

To promote Bangladeshi tradition and authenticity through technology creating a reliable and elegant online marketplace where customers can confidently purchase pure local products with expected prices while supporting rural producers and sustainable practices.
